

Welcome to Hack That Quilt Pattern

I am so excited you have decided to join me in this fun interactive class. We will explore how to take your favorite parts of an existing pattern and personalize it for personal use, making it uniquely yours.

This unique class is a combination of lecture, trunk show, discussion and notebook work. We will use one of my patterns as reference while in the class, but you will walk away with ideas on how to approach your own pattern stash.

Required Materials:

- Hack That Quilt Pattern Workbook (provided in class as part of your class fee)
- Patience
- A sense of humor
- Pen or pencil and paper for notes
