

Jelly Roll Magic

13 Panels Tensisters Easy Piecing Grid™

2 Inch Finished 78" x 78" before borders

Background: 1 $\frac{3}{4}$ yds Cut 340 squares 2.5" before class

Use 2 jelly rolls (cut into 2.5" squares) with colors mixed evenly. As you know, every pre-cut 2.5" jelly roll is different as far as how many strips of each fabric are included. You need a roll that has at least 40 strips. Keep in mind how many colors or shades you want; some rolls have 4-5 different colors, where others may read as two colors! Make sure you've got a good variety of colors or contrast.

If you want more specific fabrics buy extra yardage or add a third jelly roll. Another option is scraps! Cut into 2.5" squares.

Optional sizes of EasyPiecing Grid available: For 1.5" finished, cut strips to 2", then cut 2" squares. For 1 inch finished use 1 Honey Bun! Cut 1.5" squares.

Email Carmen at info.tensisters@gmail.com for questions or if you'd like 1" or 1.5" finished EasyPiecing Grid. Check out the video tutorials on tensisters.com for info on EasyPiecing Grid. See you in class!

Other supplies: 6 Elmer's Washable school glue sticks or Sewline glue pen (I prefer white), basic cutting and sewing tools, Applique Pressing sheet (optional)
