

Welcome to Quilt Block Remix

I am so excited you have decided to join me in this fun interactive class. We will explore how to take your favorite parts of an existing pattern and personalize it for personal use, making it uniquely yours.

This unique class is a combination of lecture, trunk show, discussion and notebook work. We will go through some design exercises using the graph paper and tracing paper in your supply kit so you will walk away with ideas on how to approach to create your own project.

What do you need to bring to class? An open, inquisitive mind and questions!

Recommended: pencil and eraser (just saying!), and paper for notes
