

Studio Carly Mul.....with a passion for fabric, color and design

"Agamy" Stripes Class

In this class students will learn to make a quilt in the style of the work of Yaagov Agam. Agam is a sculptor and his dynamic art is full of movement. You can look up his work on the internet and get inspired! It makes an interesting challenge for quilters to work with solids.

In the class we will make a design by using fusible interfacing. This creative class is a mix of raw edge applique and collage. There will be no sewing, we are working on a layout. Instructions on how to finish it at home will be discussed.

Students need to be able to cut consistent straight lines of .5".

Needed for class

(1) One yard of high quality black solid.

(2) At least 30 solids in size 4" x 6". Any color combination can work. Bring ranges of colors, for instance 5 shades of blues, 5 reds etc. If you have scraps in solids laying around, you can bring those as well.

Try to bring high quality solids as some lower end solids are fraying too much when you cut thin stripes. Solid batiks work very well as well.

(3) Mat, rotary cutter (with working blade) and a ruler that lets you cut .5" comfortably. Since no piece will be longer than 6", a small ruler works best.

(4) Small scissors. Karen K Buckley's blue scissors is my choice.

Material kit

There will be two kits available. The first one is the kit everyone needs to get. It includes 1 yard of the background stripe fabric and 1 yard of Lite Steam a Seam 2. This kit is \$24.00.

Optional kit

It would be really nice if we don't have to spend a lot of time in class on ironing fusible interfacing to the background. Some will have to be done, but fabrics already prepared with fusible could be handy. Some students will have 30 solids in their stash and they are advised to iron the fusible interfacing at home. IMPORTANT: ONLY LITE STEAM A SEAM 2 will work for class. If you have any other fusible interfacing or you don't know what you have, please bring only fabric. The class will NOT work with other fusibles!!

I can bring a (second) kit for students who order the kit in advance. This kit is optional as I want students who have the fabrics already being able to use their stash, if they choose so.

The optional kit will have 30 pieces in size 4" x 6", already provided with the right fusible. All you would have to bring is a yard of black. Please contact me before the class if you would like to order this. This kit is \$30.00.

Please contact me with any questions!
