3-D FLORAL FABRIC ART VESSEL

Take your creativity to the next level by creating a beautiful 3-dimensional fiber art vessel. You will learn how to create a stable yet flexible vessel using a special stabilizer and working with an original vessel design.

You also will create a beautiful bouquet of flowers giving this vessel the added touch of dimension and beauty.

In this 3-hour class you will hand stitch the panels together with an easy whip stitch. Once you learn my technique for creating the vessel you will be inspired to create more art vessels.

You will learn how to design dimensional flowers using my technique guaranteeing your flowers will never wilt! The variety of 3D flowers I also demonstrate will expand your floral choices for quilt, purses, wall hanging and more.

The Kit: The kit includes all the fabrics, the special stabilizer and adhesives to create the vessel and flowers. All the embellishments are also included. Complete patterns and step by step directions with pictures are included.

I will demonstrate several different vessel types and various 3D flower creations.

YOU WILL NEED TO BRING:

Scissors to cut fabric. Needle and thread. Thread color: cream, white or off white. I will also have needles and thread available.

Scissors for cutting paper patterns.

A glue stick.

Optional: Tweezers or pins to move flowers and leave around as you design on the vessel

Quilt Festival Education Department provides irons and ironing pads in classrooms. I will provide hot glue and glue guns to use when placing flowers on the art vessel.

Feel free to video my demonstrations and take pictures during the class.

If you have questions prior to class, you can reach me at Rita@RitaLynneStudio.com
