

## EPP Design Party with Tina Craig

Learn the basics of English Paper Piecing, but go home with a project that is uniquely yours. We'll be working with shapes based on 60° angles: hexagons, diamonds, jewels, triangles and more. Learn about the geometry and supplies specific to EPP. Instruction will include fussy cutting, basting, hand stitching, and more as time permits. Suitable for beginners, this class will also engage experienced stitchers. Finish a single block as a mug mat or make more blocks for a table runner. This is a hand stitching workshop, so no sewing machines are needed!

### Supply List

**Fabric:** assorted scraps, charm squares, fat eighths or fat quarters. Consider starting with a favorite print as a guide for choosing coordinating colors. Bring at least 4 coordinating fabrics. Additional fabric and batting will be needed after class to complete your project.

**Fabric glue pen** and refills, any brand.

**Needles:** Straw or Milliner size 9, 10 or 11.

**Thin thread** such as Superior Bottom Line (60 wt poly) or Wonderfil DecoBob in a neutral color.

**Fabric scissors.**

**Tape:** paper tape or masking tape, optional.

**Thimble** that works for you.

EPP tool kits (similar to the one shown below), as well as individual items and additional paper templates, will be available for purchase in class. Please note that tool kits do not include fabric.
